Description:

AORE will be hosting the inaugural Women's Leadership Mentor Institute (WLMI) in Snowbird, UT October 22-23. The Institute will consist of both classroom and field-based sessions and will be led by women, for women. The goal of WLMI is to provide an inclusive environment for women to enhance their technical outdoor skills, gain confidence in addressing sexism and gender bias in the workplace, and to build relationships and increase confidence through mentorship. We hope that participants will feel supported and encouraged to take on greater leadership roles within their organization and within the AORE.
